

# ARCTIC TIPPING POINTS

23-28 January 2011 in Tromsø, Norway

The Arctic Frontiers conference is a central arena for the discussion of arctic issues. The 5th annual conference explores the concept of Tipping Points as it applies to social, economic and ecological systems. Additional focus is on how research can support and guide sustainable development and resource management in the High North.

Invited speakers are distinguished political leaders, government officials, researchers, industry and business leaders, indigenous people and non-governmental organisations. Welcome to Norway, Tromsø, the conference and the Northern Light!

Visit [www.arcticfrontiers.com](http://www.arcticfrontiers.com) for further information to register.
